

## Internships

### 12th Congressional District Summer Internship Program

College students who live or attend schools in my Congressional District may apply for internships in my Charlotte, Greensboro or Washington offices. Paid internships are available in the summer. Our summer internship program is a two month program beginning in June and ending at the end of July. To apply, submit a resume with a cover letter and a writing sample to the office in which you would like to intern.

For further information, contact Tawana Wilson-Allen District Summer Internship Coordinator at my Charlotte office.

## Internship Guide

This is our annual publication of internship opportunities within the federal government for undergraduate, graduate and law students. The information contained in this publication was provided by federal departments and agencies at my request and, unfortunately, does not include every available opportunity. Despite this, I hope you will find the information useful.

**Congressional Black Caucus Foundation Internship** Congressional Black Caucus Foundation Internship programs bring the policy making process to life. The nation's capital serves as the backdrop for our internship programs that offer personal, educational, and leadership development. Students leave our programs better prepared to meet the complex challenges facing current and future generations.
